## per la messa al bando dei pesticidi ad alto rischio (PAR)

**L'esperienza accumulata nei decenni** ha dimostrato che nonostante numerosi programmi di "uso sicuro", l'"uso sicuro" dei pesticidi ad alto rischio (PAR) non è possibile. Le persone, gli animali delle fattorie, la fauna e flora e l'ambiente continuano ad essere considerevolmente affetti dai PAR. Dopo anni di fallimenti, che hanno portato alla morte di milioni di persone nel mondo, è necessario implementare nuove politiche per fermare l'avvelenamento dai pesticidi. Il ritiro e la proibizione dei PAR, in parallelo a nuove politiche in supporto a pratiche alternative, possono portare ad un mondo più salutare e sostenibile per tutti noi.

**Noi**, i firmatari, facciamo appello ai governi e alle aziende affinché si prendano azioni concrete verso il ritiro e la proibizione dei PAR, e la loro sostituzione con alternative ecosistemiche.
