

Job Announcement

PAN Germany is looking for a project officer for lobbying and public relations on the topic "Regulation of the registration and use of biocides by the EU"

- You want: that the further development and implementation of the EC legislation on biocides will place a strong emphasis on the protection of people and the environment.
- You can: convincingly explain verbally and in writing your health and environmental reasons for the legal regulation of the registration and use of biocides which is committed to experts, politicians, journalists and the public in German and English. Then please make your application.
- Requirements: Knowledge in legal regulation of biocides or pesticides (or chemicals), experience in lobbying in Brussels, as well as in public relations; very good language skills in English; skills in writing technical position papers and generally understandable texts for the press and interested public; experience in the coordination of working groups, organisational skills; willingness to travel within Europe.
- Salary: 20 hrs/wk / 1,850 EUR before tax / month, limited to 18 months
- Begin: 1.7.2009
- Deadline for application: 10.6.2009

Please send your complete electronic application only to the following e-mail address:

bewerbung@pan-germany.org

PAN Germany is an experienced, non-profit organisation providing information on the risks of pesticide-intensive agriculture and pest control, and fighting for environmentally sound, socially acceptable and economically sensible alternatives.

Our continuous commitment is democratic, oriented towards poverty and the environment, network-based and aware of gender issues. **Our working methods** range from the critically-constructive monitoring of political-legislative developments and economic activities to the provision of hands-on information and services to farmers and consumers.

A healthy world for all.

Protect humanity and the environment from pesticides. Promote alternatives.
